

Green Lake is OPEN

We are continuing to make our usual deliveries. However, we are limiting the traffic on the nursery yard.

New Customer Pickup protocols during the Covid-19 Pandemic:

If you need to visit the nursery, please call your order in ahead of your arrival. **All transactions will be handled outside of the front office.** Someone from our staff will meet you outside at the table under the awning with your paperwork. **You must respect the 6' social distancing at all times.** Please limit your visit to one person representing your company per visit. If there are additional people with you, they must remain in the vehicle at all times. Office access will be closed to customers, including bathroom access.

For the safety of our customers and our staff, we will not assist you in loading orders. If you are unable to load your own order a request can be made at the front office and we will load it for you. **You must remain in your vehicle while our employee is loading your material.** We ask for your patience as our staff is limited in number.

We appreciate your business and let's work through this together!
